

## Resident Travel Grant Application

Choose one:

- Headache Cooperative of New England Annual Conference - Stowe, Vermont (March)
- Headache Update - Walt Disney World Resort, Orlando Florida (July)
- Scottsdale Headache Symposium - Scottsdale, Arizona (November)

**Background:** The Association of Migraine Disorders believes many head and neck symptoms have a neurologic origin. We believe that a greater understanding of neurology and a closer relationship with other related specialties that witness migraine disorders will better prepare the next generation of otolaryngologists to become the leaders in both clinical and research applications of neuroscience. We sincerely hope you will consider participating in this new initiative.

**Instructions:** Complete this application and submit with your CV by one of the following methods:

- email to [grants@migrainedisorders.org](mailto:grants@migrainedisorders.org) (as an attachment)

**Deadline:** must be postmarked 2 months prior to conference date.

**Eligibility:** Any person currently enrolled in any American or international Otolaryngology Residency Program.

**Value of Grant:**

- From US destination: \$1000 USD
- From non-US destination: \$1,300 USD

Recipients of the Award will notified approximately two weeks after the deadline. This organization reserves the right to publish the names of the Travel Award recipients.

A letter from your Residency Director confirming your good standing in the program will be required for reimbursement.

The travel grant reimbursement will be distributed *after* the conference and will require a short form along with receipts for registration, transportation and lodging. Proper receipts with your name on them are required.

Have you applied for or plan to receive any other funds?

**Essay (maximum 500 words)**

Explain your interest in migraine disorders. The criterion for the essay is any experience, professional or personal, which has drawn your interest to the subject of migraine. The possibility of being selected will be enhanced if you submit, in addition to the essay, an abstract or proposal for future clinical or research projects in the area of migraine disorders.
